ENG-FRA: My apologies--must of went brain dead for a turn.

FRANCE/ITALY: Ever try to climb a mountain from the top down?

HINSDALE-STEVE: Thank You.

FROM STAN JOHNSON: Actually I lived in N.J. befor I saw the light and moved to AZ. I could make comments about Wimpy, Whitebread, Milquetoat Midwesterners; but Prefer to directly address the lies and misrepresentations in your comments.

I insulted only one individual who had insulted me. Am I supposed to feel bad because he took the insulting to heart, while I did not? I have questioned your Policies only twice; the recent Question and I wrote Saying "You do Such a great job running these games, who do You let these NMRers ruin them." I thought that was a Kind Word to you. I questioned why someone who NMRed in one issue was able to start a new game in the very next issue. I was only talking about looking From one issue to the next and you Sarcasticly replied asking if I wanted OR expected you to do F.B.I. background checks on the players.

Now I am the nasty New Yorker; well I might as well live up to it. You're a _____. Just use your imagination; that's what you're most recent comments were based on.

I'm not trying to give You a hard time. I honestly feel you are the one who's been busting my balls! As an exsample last ish; I had honest Question, as I had never seen your method used in a lengthy career; and you tell me about writing standbys. Using your method A player could take over + I'd have to write both 3 turns to be on Safe Side; Give me a break!

HINSDALE TO STAN- I believe you discount. Since you couldn't anticipate the first NMR, you'd have to write to both players twice, not three times.

QUOTEABLE: "A cynic is not merely one who reads bitter lessons from the past; he is one who is prematurely disappointed in the future." --Sydney J Harris, American journalist.

And "Trying to find a (car) insurance company that will cover you in Bosnia is like Salman Rushdie trying to buy life insurance in Tehran. And from Michael Brown, the son of the late Commerce Secretary Ron Brown, speaking at his funeral after hearing his Dad described as "smooth like a swan" and "graceful, especially under pressure: " "These people never played golf with him."

HERB COHN

THE REALLY BIG NEWS AROUND HERE is that the CBS writers and the Westinghouse owners have reached tentative agreement on a new contract. That eases a lot of nerves that frayed over the 17 days it took for both sides to finally come to an agreement after the last contract had expired. No word yet on the details...

As the writers continue their careers in radio and TV, Rob Spatz is embarking upon his in radio news. Rob has accepted a job at WSOY radio in Decatur. He will be the afternoon news anchor. Congratulations, Rob! And good luck...

OUR SOURCES WRITE FOR US THAT: "While Jim Gillespie was a willing host and had an open door policy with friends and acquaintances there were few takers because of his manner of housekeeping. Well, there was an 'Open House' recently at 52 Kimbark by the new owners, who have renovated the house and put it up for sale.

"A STAR undercover reporter says that the house is unrecognizable. The enclosed front porch has been opened and a beautiful wood door with a brass knocker has been installed. The woodwork has been redone and beautiful hardwood floors gleam throughout the first floor. A powder room has been added under the stairs. There are all new fixtures and appliances. In other words, Jim's house is finally clean."

TRAVEL NOTES: It's official! Tom Eng is planning to fly into Chicago for a long weekend to attend the STAR dinner on May 18th. He'll be in Washington DC for a few days before stopping here. By the way, Marilyn Idelman-Soglin

points out that Nancy Slonim deserves half the credit for the planning of this affair, and to both lovely ladies, a tip of the Cohn hat. Marilyn also corrects us that the Ubba is not a cafe (do you remember that Gillespie always pronounced that word to rhyme with "safe?"), but really a bar and restaurant...

MEANWHILE, Mary Novak has been on the road, visiting Graceland in Memphis!

**STONE AND PLASTER GARGOYLES ARE
ALL THE RAGE FOR GARDEN AND HOME**

ILLINOIS STYLE

By JIM LENAHAN

Rockford Register Star

ROCKFORD, Ill. (AP) — Call it the '90s answer to the pink flamingo.

Gargoyles, those menacing stone carvings from the Middle Ages, are making a comeback as the hip home decoration of late.

"We sell them almost as fast as we can get them in," said Doc Slafkoski of the J.R. Kortman Center for Design in Rockford. "As time has gone on they've just become more and more popular."

So popular that even retailers whose previous statuary sales have been limited to the traditional concrete geese, have jumped into the gargoyle craze.

Ron Schultz of Village Green Home & Garden in Rockford said he read about the new trend in trade magazines and ordered a selection of outdoor gargoyles for the spring season.

"I think it's kind of like a Renaissance thing. I don't know if that's the right term."

Well, actually, gargoyles are a medieval thing. That was the period just before the Renaissance. Back in pre-1450 Europe, gargoyles were a popular architectural adornment, thought to ward off evil spirits with their threatening stares.

Their original function as water spouts led to the name "gargoyle," derived from the gurgling sound of water running from their mouths.

Later, they were simply used as stone decorations built into and atop the walls of cathedrals and castles.

The modern gargoyle is mostly used for interior decoration or a hipper version of a lawn ornament.

"We have a lot of people who have started designing their gardens around gargoyle pieces," said Stacy Bueschel McDonald, spokeswoman for Design Toscano, an Arlington Heights mail order house that grossed \$9.5 million last year largely due to gargoyle sales.

Prices range from about \$10 to \$100, depending on the size and weight of the gargoyle. Other uses for the former guardians have developed in recent years. Gargoyles have been used to create imposing tables, shelves and even ornate birdhouses.

Not all gargoyles are frightful figures. Among the most popular gargoyles is Dedo, a cute, crouching creature who, legend has it, was placed atop the famous Notre Dame Cathedral in Paris by a nun who found the other gargoyles unappealing.

But gargoyles, even those of the traditional, winged and fanged variety, have become loveable. There is now a cartoon called "Gargoyles." Also, Disney's animated "Hunchback of Notre Dame" movie, to be released this summer, reportedly features singing and dancing gargoyles.

But exactly what is the appeal of these stone beasts?

"To some people, they're so ugly, they're cute," said Bueschel McDonald. Slafkoski said simply, "They look neat."

**BULGARIAN MUSICIANS PLAN WORLD'S
HIGHEST CONCERT**

SOFIA, Feb 7 (Reuter) - A group of Bulgarian musicians and actors plans to get into the Guinness Book of Records by staging the world's highest concert on Mount Everest, newspapers said.

The band will travel from the Nepalese capital of Kathmandu to the Everest base camp in April or May where they will put on their concert at 5,500 metres (18,300 feet) above sea-level, the papers said.

"The expedition will be for the glory of Bulgaria," the daily "24 Hours" quoted one would-be participant, the singer Doni, as saying.

The main problem facing the Bulgarians is money as the whole trip is expected to cost some \$62,000. The state news agency BTA said Bulgaria's national carrier Balkan Airlines might help sponsor the expedition.

The driving force behind the plan is Alexander Iliev, a teacher of mime at Sofia's theatre academy, who is currently riding up Kenya's Mount Kilimanjaro on a bicycle.

**OLD CLIP OF POPE TO BE USED IN
AD FOR ROSARY CD**

VATICAN CITY (AP) — A film clip showing Pope John Paul II hiking in a forest 12 years ago will be used in TV ads promoting the Vatican's latest commercial venture: an Italian recording of the pontiff reciting the Rosary.

The advertising campaign, run by Vatican Radio, apparently marks the first time the Vatican has used a filmed image of the pontiff to sell a product on television.

Most of the advertising for the recording — available on a double CD or two cassettes — will run in Catholic periodicals or on Vatican Radio.

But during Holy Week, the first week of April, selected TV stations in Italy also ran ads done "in a correct style" and with "taste," Vatican Radio said.

The 76-year-old pope has been slowed recently by health problems; last week, he canceled some appearances after falling ill with what the Vatican described as digestive problems and a fever.

The 45-second TV spot, however, shows a much younger, more robust pope, hiking with a walking stick during his trip to Canada in 1984 as he prayed the Rosary.

Last year, John Paul made his English-language and Spanish-language commercial audio debut reciting the Rosary on CD and cassette.

DID YOU KNOW? that on March 6, 1913, a San Francisco newspaper used the word "jazz" for the first time in print. The first style of music known as jazz was the New Orleans style, later called Dixieland, in which a small group would improvise collectively on a tune.

Notes: TUSKEGEE owner Bob Spatz felt he needed to be where the action was with his chance for salvaging the season potentially riding on the ability of the rudderless NEVADA squad beating CANARYVILLE in the campaign finale for those clubs. So Spatz attended the game between the mail-in-the-year Desert Riders and the streaking Parrots. And word is he had a lot to do with the mildly surprising upset by Nevada. It took a fourth-quarter comeback and season-high performances by "home" team rookies Bukrajewski (30 points) and Primeval (17 boards) to win for the Celtics...The incredible run that the BUFFALO WINGS are on continued with a tough win at WHITEHORSE. The Wings, a young team of which probably too much was expected this season, remained in contention with two games left, thanks to the nosing out of the 98ers. But, those two games are at Cheyenne and Mohawk. For Whitehorse, the loss eliminated the arctic-dwellers from the race, but capped a courageous showing by

*a team that should have been crippled by the early-season loss to campaign-ending injury of guard Jaime Bravo. Perhaps the Prospectors were too gentlemanly. They were whistled for only six fouls against the Wings, who canned four of six from the line. Buffalo, itself was called for only 15 personals in one of the season's cleanest games, one in which the Wings' superior team defense sparked the victory...Consensus preseason favorite CHEYENNE wrapped up the top seed with victories at home against JACKSON HOLE and Buffalo, and at the same time cleared up the playoff picture somewhat. The Sabres will draw a first-round bye and in the semifinals face the winner of the series between the fourth seed (either MOHAWK or TUCSON) and the fifth (BUFFALO GROVE). MATER CHRISTI will begin defense of its tournament championship of a year ago holding the second seed. The Knights will face Canaryville, which as the seventh seed last year upset second-seed Mohawk in the quarterfinals. Tuskegee is seeded sixth and will open with the third seed (Tucson or Mohawk). Cheyenne struggled against Jackson Hole, not completing the come-from-behind

triumph until the contest's final four minutes. Injuries to Gadot and Fezziweg hurt the Dudes more than the injuries to Vernal Falls and Whitman hurt the Longknives. Lecter paced the winners with a season-high 37 points. For Jackson Hole, which opened 1-11 but finished 5-8 after the Fasthorse trade to Buffalo, it was an encouraging finish to a season doomed by a catastrophic beginning...Buffalo hit the wall Out West, the blowout loss finally ending the Wings' run in elimination. Fasthorse was held to 18, putting him in position to require a big game at Mohawk and against scoring-title rival Brown of the Magicians to overtake Huey of the Knights for that individual honor and present league historians with the dilemma of awarding the title to Fasthorse even though the guard will only have played in 14 games for Buffalo...No problem. Beating the press deadline came word of the good news for Buffalo-a blowout win at Mohawk--and the bad news, Fasthorse again held to 18, knocking him out of the scoring-average race. The Mags' Brown had to be even more frustrated. He scored 31 in the losing cause. It wasn't enough. Huey finished with 733 points on the season, Brown 731. The Wings' victory clinched the third seed for Tucson, the Eagle Dancers having beaten Mohawk two of three this season, regardless of the outcome of Tucson's season-closing pair of games against WHITEHORSE. So, the playoff quarterfinals are set: Cheyenne(1) bye; Canaryville(7) at Mater Christi(2); Tuskegee(6) at Tucson(3); Buffalo Grove(5) at Mohawk(4). For the Wings, it'll be a summer of musing about what might have been had they started their finishing kick a game earlier. They even made two four-point plays in the game at Mohawk. For the Magicians, the loss had to leave them and their fans wondering whether the club will sustain a consistent effort in the playoffs...

THIS WEEK IN THE UBA: Enthusiasm for the league continued to soar in the form of series completed and reported. Tuskegee's Bob Feller started and lost two games against Denver. Vern Kennedy salvaged the finale with a 12-0 shutout... The TacoBenders also dropped two out of three against Vince Bianco's Bodega Bay Clams, which then dropped two of three both to Buffalo and to Tucumcari's Jugheads, which also won two out of three from New Orleans and Tuskegee, one of them by an 18-7 decision. Buffalo's Joe DiMaggio broke out of a slump with 4 hits and 4 RBIs in game 3, as Buffalo won a series from Troy.
